

## TO TRY REFORMS IN THE COAL MINES

### OPERATOR DE ARMIT'S PLAN IS ADOPTED.

Col. Rend Likely to Agree—Important Action Taken by the Pittsburgh Arbitrators, Subject to Ratification—Mine Manager Threatens to Begin Eviction Proceedings.

Pittsburg, Pa., July 29.—The coal operators took an important step toward uniformity by adopting the report presented at Tuesday's session of the convention. It provides for putting the uniformity agreement into effect Jan. 1, provided the necessary 95 per cent of the operators of the district sign it. As many of the river operators and some of the railroad mine owners refuse to do this, the work of securing the signatures will be hard.

J. B. Zerbe, president of the Ohio and Pennsylvania Coal company, said, if adopted, the uniformity agreement would have no effect on the strike.

The operators held three sessions, the last adjourning when the twenty-first and twenty-second clauses of the agreement were adopted. Chairman Zerbe then announced the agreement was in such shape that it would conciliate the differences among the operators and remedy some of the abuses of the coal trade.

Judge Owen announced that Col. Rend had authorized him to state that any agreement the conference adopted would receive his hearty co-operation, and he would sign it if 95, 50 or even 20 per cent of the operators were sincere in their sanction of it.

The conference appointed a committee of five to secure the signature of the operators to the agreement. This committee will be aided by the Ohio board of arbitration. When the requisite number of signatures has been secured another meeting will be held to ratify the agreement.

The agreement as adopted provides for cash payment of wages, full 2,000 pounds to the ton, check weighmen on the tips, miners to be credited with the full quantity of coal contained in the mine car, abolition of company stores, semi-monthly pay days, uniform price for pick mining in the thin and thick vein districts and screens not exceeding one-half an inch.

It also provides that in case of the violation of the provisions and terms of the agreement a penalty of 10 cents a ton on the total output of coal mined by the violator will be charged, which penalty is to be paid to a commission, subject to the right of further arbitration or appeal.

The most important clause is the twenty-first, which relates to the commission which shall put the agreement into effect and fixes the time of the beginning of the agreement. To get around special contracts it is provided that all present contracts shall expire Jan. 1, when the agreement goes into effect.

### THREATENS TO EVICT MINERS.

Manager Flickinger of the Monongah Miners Hurries a Crisis.

Wheeling, W. Va., July 29.—That the conference of national labor leaders here Tuesday planned far more than given to the public is demonstrated. The strike in West Virginia has taken new life. The first act was the employing of John J. Davis to defend the injunction cases brought by the Monongah and Watson Coal companies at Fairmont to prevent parading, speech-making and assemblages in the public roads of Marion county. The second move was the departure of Ratford and Gompers for Charleston to meet Gov. Atkinson to discuss the position which West Virginia's executive will take with regard to the rights of free speech and peaceable assemblages.

Representatives of the American Federation of Labor and of the Knights of Labor announced that Tuesday's meeting resulted in the unification of the two organizations so far as the present fight is concerned.

At Fairmont General Manager Flickinger of the Monongah mines notified the strikers that they will be evicted as quickly as the machinery of the law can do it.

Wednesday when the new men at the Monongah mines went to work they were assaulted by women, wives and daughters of the strikers. The miners fled, some going home, and others to the mine for safety. Stones and clubs were used effectively.

### Strikers Gain Ground in Iowa.

Ottumwa, Iowa, July 30.—Two hundred men at Rathbun, one of the Whitebreast mines, joined the Forbush men on strike. Five hundred more at Mystic are expected to refuse to go to work. Other union men in the district are still working, but say they will join the strike if it is to be general. Non-union men all over the district say they will not quit, and they promise trouble if they are molested.

Centerville, Iowa, July 29.—It is reported that a large number of mines in this district will strike for \$1 per ton.

### Great Sympathetic Movement.

Columbus, O., July 29.—National Secretary Pearce has returned from the Wheeling conference. He said: "The conference was exceedingly harmonious, and much benefit will accrue to the miners from the action taken. In ad-

dition to moral and financial assistance tendered Aug. 5 was named as a day upon which all the trade unions of the United States will hold meetings to protest against the courts enjoining the miners' officials from public speaking in West Virginia. The sentiments of 1,000,000 trade unionists will be expressed on that day."

**Missouri Meeting Abandoned.**  
Sedalia, Mo., July 29.—The miners conference proved to be a fizzle. The expected Kansas and Illinois delegations failed to materialize, as did also the delegates from Rich Hill, Lexington and Higginsville, Mo., and the conference was declared off. This settles, for the present at least, the question of a general strike in Missouri.

**Excitement at Roanoke, Ill.**  
Roanoke, Ill., July 29.—Excitement prevails here over the threats of the miners at Minonk, Wenona, Streator, Rutland and Toluca to come here to force out the miners. The sheriff is here with a large number of armed deputies and will protect the property of the company and the lives of the men.

**Declines to Send Troops.**  
Springfield, Ill., July 29.—Gov. Tanner has wired the sheriff of Woodford county declining to call out troops on account of the threatened invasion of Roanoke by striking miners. The governor says that no infraction of the law has been shown.

### LOOKS FOR A BACKDOWN.

Paris Figaro Comments Bitterly on American Diplomacy.

Paris, July 29.—The Figaro has an article on the Hawaiian question which concludes as follows:

"It is very probable that an amicable arrangement will be come to between Japan and the United States and that this arrangement will recognize the previous rights of Japan in the archipelago. The United States will most likely back down on the most important points. But what are we to think of the sacrifices the Americans would have to make if it should ever happen that the ranting of their jingoes or the calculation of their speculators should give rise to a real conflict with a European power, even of the second rank."

### Gorman Still in Control.

Baltimore, Md., July 29.—At the Democratic state convention here Wednesday it was clearly demonstrated that United States Senator Gorman still has his hand on the lever that controls the movements of the organization. The platform approves the appointment of the commission to arrange the terms of a bimetallic system under the operation of which both gold and silver shall be used and recognized as money of final redemption; denounces the Dingley tariff law, which, it declares, is a more odious measure than the McKinley act of 1890, and demands that the United States government take such action as will ameliorate the atrocities now being committed in Cuba and to fully protect every American citizen there in the enjoyment of his life and property.

### Road Through the Cassiar District.

Vancouver, B. C., July 29.—A cablegram from London states that a capital of \$400,000 has been subscribed for the construction of the Cassiar Central railway in the Cassiar district, northern part of British Columbia. The charter was granted the company at the last session of the provincial legislature, which also gave aid by the concession of a lease of 7,000 acres of land and the right to all minerals, including gold and silver found therein.

### Preacher Shoots His Uncle.

Tuscola, Ill., July 29.—John Hearst, a Baptist preacher, who resides a few miles northeast of this city, came to Tuscola Thursday and placed himself in the hands of Sheriff Bagley, saying that he had shot Mason Caldwell. He alleged that Caldwell had induced Madeline Hearst, his daughter, aged 15 years, to accompany him on a trip to Cincinnati. Hearst's friends assert that he was justified in shooting Caldwell, who is his uncle and a man 50 years of age.

### British Trade Most Important.

Vienna, July 29.—The Neue Freie Presse publishes an interview with the Marquis Ito, formerly prime minister of Japan, in which the marquis scouts the idea that Russia will ever get ahead of Great Britain in Asia. So far as Japan was concerned, Marquis Ito, said, the trade of other nations was of secondary importance as compared with the trade of Great Britain.

### Collision in Mid-Ocean.

Boston, Mass., July 29.—The steamer Scandinavian, which arrived from Glasgow Wednesday night, brought four survivors of the British barkentine Florence of St. Johns, N. F., which was sunk by the steamer off the coast of Newfoundland. Mrs. Eliza Olsen, wife of the captain of the Florence, and four of the crew, went down with the vessel.

### Drowned in Diamond Lake.

Niles, Mich., July 29.—At Diamond Lake Thursday four society girls, two from near Cassopolis and two from Vandalia, were taking a cruise around the lake when a sudden gust of wind capsized their yacht. Dora O'Dell was drowned, but Mary Skinner, Clara Whitehead and Etta Train were rescued.

### Charles Pope Is Injured.

Geneva, Ill., July 29.—Charles Pope, the glucose manufacturer, was thrown from his carriage Thursday and seriously hurt.

## MILLIONS ARE SAVED BY THE SYSTEM

### BUILDING AND LOAN ASSOCIATION MEETS.

Encouraging Showing Made—Immense Increase in Investments Throughout the Country During the Past Year—Senator Foraker Talks of Approaching Prosperity.

Detroit, July 29.—Notwithstanding the general business depression of the last year the assets of the building and loan associations of the United States increased \$18,760,930 and the membership of the societies increased by 65,171.

This progress in rent saving and home securing by American wage-workers was shown Wednesday when Secretary H. F. Cellarius of Cincinnati presented his annual report at the opening of the meeting of the United States League of Local Building and Loan associations. He showed the total assets of the society, which number 4,776, to be \$598,388,695, contributed by a membership aggregating 1,610,300. The highest proportionate gains were made by the eastern and central states. The states showing a loss in assets are all located west of the Mississippi, except Illinois and Tennessee.

The following comparative statement indicates the gains done during the year:

| States.       | Associations. | Membership. |
|---------------|---------------|-------------|
| Pennsylvania  | 1,160         | 250,000     |
| Ohio          | 755           | 237,651     |
| Illinois      | 718           | 196,732     |
| New Jersey    | 304           | 111,575     |
| Indiana       | 505           | 157,264     |
| New York      | 313           | 94,864      |
| Missouri      | 288           | 58,021      |
| Massachusetts | 122           | 63,102      |
| California    | 136           | 19,951      |
| Minnesota     | 72            | 10,804      |
| Tennessee     | 41            | 7,198       |
| Nebraska      | 76            | 12,142      |
| Connecticut   | 16            | 10,415      |
| Maine         | 34            | 8,226       |
| Other States  |               | 302,243     |
| Totals        | 4,776         | 1,610,300   |

In his annual address President Michael J. Brown of Philadelphia urged that building associations encourage only simple, conservative and economical methods and aid in all matters calculated to help the wage-earner in saving money and purchasing homes. He said the last year had not been a home building but rather a mortgage-creating period, in which nearly all the people had had a hard struggle. Wage-earners of the land had sacrificed during the last few years \$5,000,000, or ten times as much as the assets of all the building societies of the United States.

Addison B. Burk of Philadelphia read a brief address on security found in local building societies. Senator Foraker in a brief speech predicted a speedy return to prosperity under the new tariff law.

At the afternoon session Judge J. H. C. Royce deprecated organizing associations on the "running-out" plan, as such associations lose the benefit of accumulation of business which comes from a reputation for successful methods. The permanent plan he advocated as even better than the serial plan.

Thomas J. Fitzmorris of the Omaha Bee read a paper which was a denunciation of alleged riotous extravagance of some managers of national building associations. Within the last twenty years, he estimated that the people of this country have been robbed of \$100,000,000 through the medium of four grades of swindles organized on the benevolent plan. National building and loan associations, he declared, differed from these frauds only in degree. Their promises are equally lavish, he asserted, and their performances as melancholy for shareholders.

### Pirates on the Yukon.

Washington, July 29.—More trouble is feared in the Klondike region, judging from the telegram received at the Treasury department asking that a revenue cutter shall be ordered to convoy a vessel of the Alaska Transportation Company from St. Michael's down the Yukon river and through Bering Sea. It has been intimated that a band of Chinese pirates has been organized for the express purpose of intercepting and looting one of the treasure crafts which are expected to leave the gold regions between Aug. 5 and Sept. 15 of this year.

### English Lutherans Meet.

Baltimore, Md., July 29.—The fifth biennial session of the English Lutheran Synod of Missouri convened here Wednesday and will continue for the week. The synod includes the States of Missouri, Maryland, Virginia, West Virginia, North Carolina, Mississippi, Louisiana, Arkansas, Texas, Illinois, Minnesota, Wisconsin, Indiana, Pennsylvania, New York, and the District of Columbia, and is the largest body in the synodical conference in the United States.

### Crown for Mrs. Lease.

Topeka, Kan., July 29.—Mrs. Mary E. Lease, the Populist orator, has been selected as queen of the fall festivities, a harvest demonstration. Mrs. Lease is in Iowa on a lecturing tour. The committee having the matter in charge has asked her by telegraph to accept the honor. She will reign as queen for a week and wear a \$20,000 crown.

## SAILED FOR YUKON IN SEARCH OF DUST

### SEEKERS FOR GOLD CROWD A STEAMER.

One Ticket Sells For \$1,500—The Last of the Alaska Commercial Company's Boats For the Present Season Leaves San Francisco With 111 Passengers.

San Francisco, Cal., July 29.—The steamer Excelsior, chartered by the Alaska Commercial Company, left Mission street Wednesday, sailing direct for St. Michael's. This is the last of the company's fleet which will connect with the Yukon river steamers this season. For hours before the departure of the steamer the wharf was thronged with people. Three times the original price was offered for tickets. One passenger changed his mind after receiving an offer of \$1,500 for the pastebore for which he originally paid but \$150. Over 2,000 people gathered upon the wharf to bid farewell to the 111 passengers for the Klondike.

### MADE \$200,000 IN TWO YEARS.

Story of One Man Who Washed for Gold on the Klondike.

Omaha, Neb., July 29.—Edward J. Baldwin, formerly of Omaha, now the Northern Coal Company's agent at Dutch Harbor, Alaska, has written his wife at Omaha concerning the great gold strike. Under date of July 11 he says:

"Will Ogden, my clerk, has just left me to dig gold on the Klondike. Ogden says he will stay ten years if he doesn't make \$50,000 before. Many men have made more than that in two years. One man went up two years ago in the steamer of the Bertha, having barely enough money to pay his passage. He has brought down over \$200,000 in dust and nuggets, and says he would not take \$1,000,000 for his claims on the Yukon."

### Will Send No Troops Now.

Washington, July 29.—The Secretary of War has suspended the execution of the order starting a party of United States troops to Alaska on the boat sailing from Seattle Aug. 5. There will be one more opportunity to move the command on a vessel sailing Aug. 20, and the matter is still open. The indications are that nothing will be done before spring.

### Warned Against the Journey.

London, July 29.—The colonial office has warned intending gold-seekers that it will be useless to start for the Klondike before spring, as the journey is possible only in the summer time.

### McKinley in New York State.

New York, July 29.—The train of President McKinley, who is en route for Lake Champlain, where he will spend a portion of his vacation, arrived in Jersey City at 5:20 p. m. Wednesday and departed at 5:40 p. m., proceeding via the West Shore railroad. The president did not appear outside the car while the train was in the station.

### Illinois Heads the List.

Washington, July 29.—The preliminary report of the commissioner of internal revenue for the year ended June 30, 1897, shows that the total receipts during that period were \$146,619,508, a decrease as compared with the previous year of \$211,106. The states from which the larger collections were made during the year are given as follows: Illinois, \$32,115,622; New York, \$18,420,766; Kentucky, \$15,657,957; Ohio, \$12,748,788; Pennsylvania, \$11,446,317; Indiana, \$8,564,363; Missouri, \$7,364,682.

### Firemen Break a Record.

Monmouth, Ill., July 29.—The sports of the firemen's tournament were witnessed by 6,000 persons Wednesday. The weather could not be excelled, and about twenty-five firemen of Chicago are on the grounds. In the contests the State record of 30 1-5 seconds on the free-for-all hook and ladder was reduced by the Monmouth team to 28 4-5 seconds.

### Twenty Engines for Japan.

Philadelphia, Pa., July 29.—The Baldwin Locomotive Works has booked an order for twenty locomotives for Japan. This, with orders already received, makes a total of fifty for that oriental empire.

### Funeral of James R. Doolittle.

Edgewood, R. I., July 29.—The body of ex-United States Senator James R. Doolittle left here at 5:55 o'clock Wednesday for Racine, Wis., which place it is expected to reach Sunday, when funeral services will be held.

### Maccabees Supreme Tent Adjourns.

Port Huron, Mich., July 29.—The Supreme Tent, Knights of the Maccabees, finished the business of its seventh biennial review Wednesday and adjourned sine die.

### Earthquake in Arno Valley.

London, July 29.—A dispatch to the Daily Mail from Leghorn says a severe earthquake took place at Pontedera and other places in the Arno Valley. Many buildings were wrecked and a large number of persons are reported to have been injured.

## THE BASEBALL REPORT.

Results of Yesterday's Games Played in the Various Leagues.

The Colts fell down in their efforts to make it two straight from the Reds and gave a poor fielding exhibition yesterday. They still cling to eighth place, as Louisville lost to Brooklyn, but both teams are in close pursuit. The Phillies are doing well on their trip and but for their Cleveland forfeiture would now be at the 500 mark. Boston carried off one game from St. Louis. Baltimore and Cincinnati remained tied for second place, both winning. Cleveland drew up on New York by taking the last game of the series.

Games today—Pittsburg at Chicago, Baltimore at Washington.

### Western League.

At Minneapolis—Minneapolis, 12; Grand Rapids, 4.

At St. Paul—Indianapolis, 5; St. Paul, 1.

At Kansas City—Detroit, 6; Kansas City, 3.

At Milwaukee—Milwaukee, 4; Columbus, 3.

### Western Association.

At Cedar Rapids—Cedar Rapids, 11; Dubuque, 0.

At Burlington—Burlington, 6; St. Joseph, 2.

### Michigan League.

Jackson and Lansing have retired. The new schedule will commence Aug. 1.

### RESPONSE TO JAPAN.

No Extended Correspondence on Hawaii Is Probable.

Washington, July 29.—It is intimated at the state department that there will be no further extended correspondence with Japan regarding the annexation of Hawaii. The position taken by the United States is that the annexation of Hawaii is a matter which concerns only the two countries which are parties to the treaty, and that the consent or approval of no other government is necessary to the completion of the transaction. This being the case, it is felt that for the state department to enter further into an argument with the Japanese minister as to the merits of the case would be compromising, in a measure, at least, to the position of this government.

### Iowa Prohibition Ticket.

Des Moines, Iowa, July 29.—The Prohibition state convention completed its work Wednesday. The following ticket was nominated: For Governor, Dr. E. L. Eaton of Polk county; for Lieutenant-Governor, M. W. Atwood of Emmet county; for Supreme Judge, N. L. Hellyer of Guthrie county; for State Superintendent, Mrs. Mary H. Dunham of Des Moines county; for Railroad Commissioner, A. U. Coates of Dallas county. Dr. Eaton was born March 27, 1846, at Hebron, Wis. In 1871 he began his work in the ministry, graduating from the theological department of Northwestern University in 1877.

The platform was adopted, with a few slight alterations, as it was reported by the committee. Temperance and woman suffrage are the burden of the seven planks. The money question and State issues aside from the liquor question were omitted. An effort to include the Temple amendment was defeated. There was but little discussion on the platform and the action of the convention upon it was harmonious.

### Addressed by Gov. Mount.

Rome City, Ind., July 29.—"Governor's day" was observed by the Island Park assembly Wednesday, and many thousand citizens of northeastern Indiana were here. The feature of the day was the address by Gov. James A. Mount on the "Twentieth Century Farmer."

### Death Due to Ague Medicine.

Guthrie, O. T., July 29.—Miss Grace Allen, the Kansas school-teacher on trial at Chandler, was acquitted of the charge of poisoning Miss Phronia Eckes, her rival, and the latter's mother. It is asserted that the women were poisoned with ague medicine which the family was known to have used.

### Used Bullets Made of Gold.

London, July 29.—A dispatch from Fort Salisbury says that the British forces took the natives at Mashigombi's kraal completely by surprise. When a charge was made upon the stockades the natives fled to their caves, in which they were afterward captured. Mashigombi was wounded during the attack, and died soon after being taken prisoner. Two bullets made of solid gold were found after the fight.

## ZUELKE MAY HANG IN SPITE OF ALL

### OFFICERS FEAR THE PEOPLE'S WRATH.

Will Not Bring the Murderer to Dartford as the Farmers Are Up in Arms—Police Give Out No Information—Hot Fire At Oshkosh.

Dartford, Wis., July 29.—[Special]—The officers here are very careful about giving out the time that Julius Zuelke, murderer of Edward Davis, will arrive, as they fear violence at the hands of the farmers hereabouts. There is much excitement here over the capture, and threats of lynching have been made. Mr. Davis was a wealthy farmer, and well liked by his neighbors, and the cold blooded manner in which he was murdered, aroused the ire of the farmers. The officers are afraid of trouble, and it is probable that he will first be taken to one of the larger jails, before being brought here for trial.

### Fire At Oshkosh.

Oshkosh, Wis., July 29.—[Special]—Fire destroyed the keg house and ice house of John Glatz's brewery early this morning and also damaged the main building. The loss is \$10,000, fully insured.

### Gold Mine in Wisconsin.

Marinette, Wis., July 29.—Florence county's first gold mine has been opened on property owned by J. M. Harris, of Barkville, Mich. It is located on 128 acres, four miles east of that city, near the Menominee river. The discovery at Florence was made by John Ronau two years ago. Several gold-bearing quartz veins from four to seven feet in thickness yielding gold on the surface averaging between \$4 and \$5 a ton are on the property. Chicago capitalists are interested.

### MICHIGAN CITY FIRE.

Families Homeless and Property Valued at \$70,000 Destroyed.

Michigan City, Ind., July 29.—One man burned to death in a horrible manner, another suffering from severe burns, several overcome by the fumes of naphtha and heat, a property loss of \$70,000, an entire block of buildings in ashes and five families homeless. These are the features of a fire Wednesday which threatened this city with destruction and resulted in a call upon the Chicago fire department for assistance. The dead:

WILLIAM BAUMAN, 32 years old; single; finisher.

The injured:

Herman Lukow, 17 years old; will recover.

Fred Peters, 27 years old; burned about body and head.

Louis Schwartz, 30 years old; married; burned about head and shoulders.

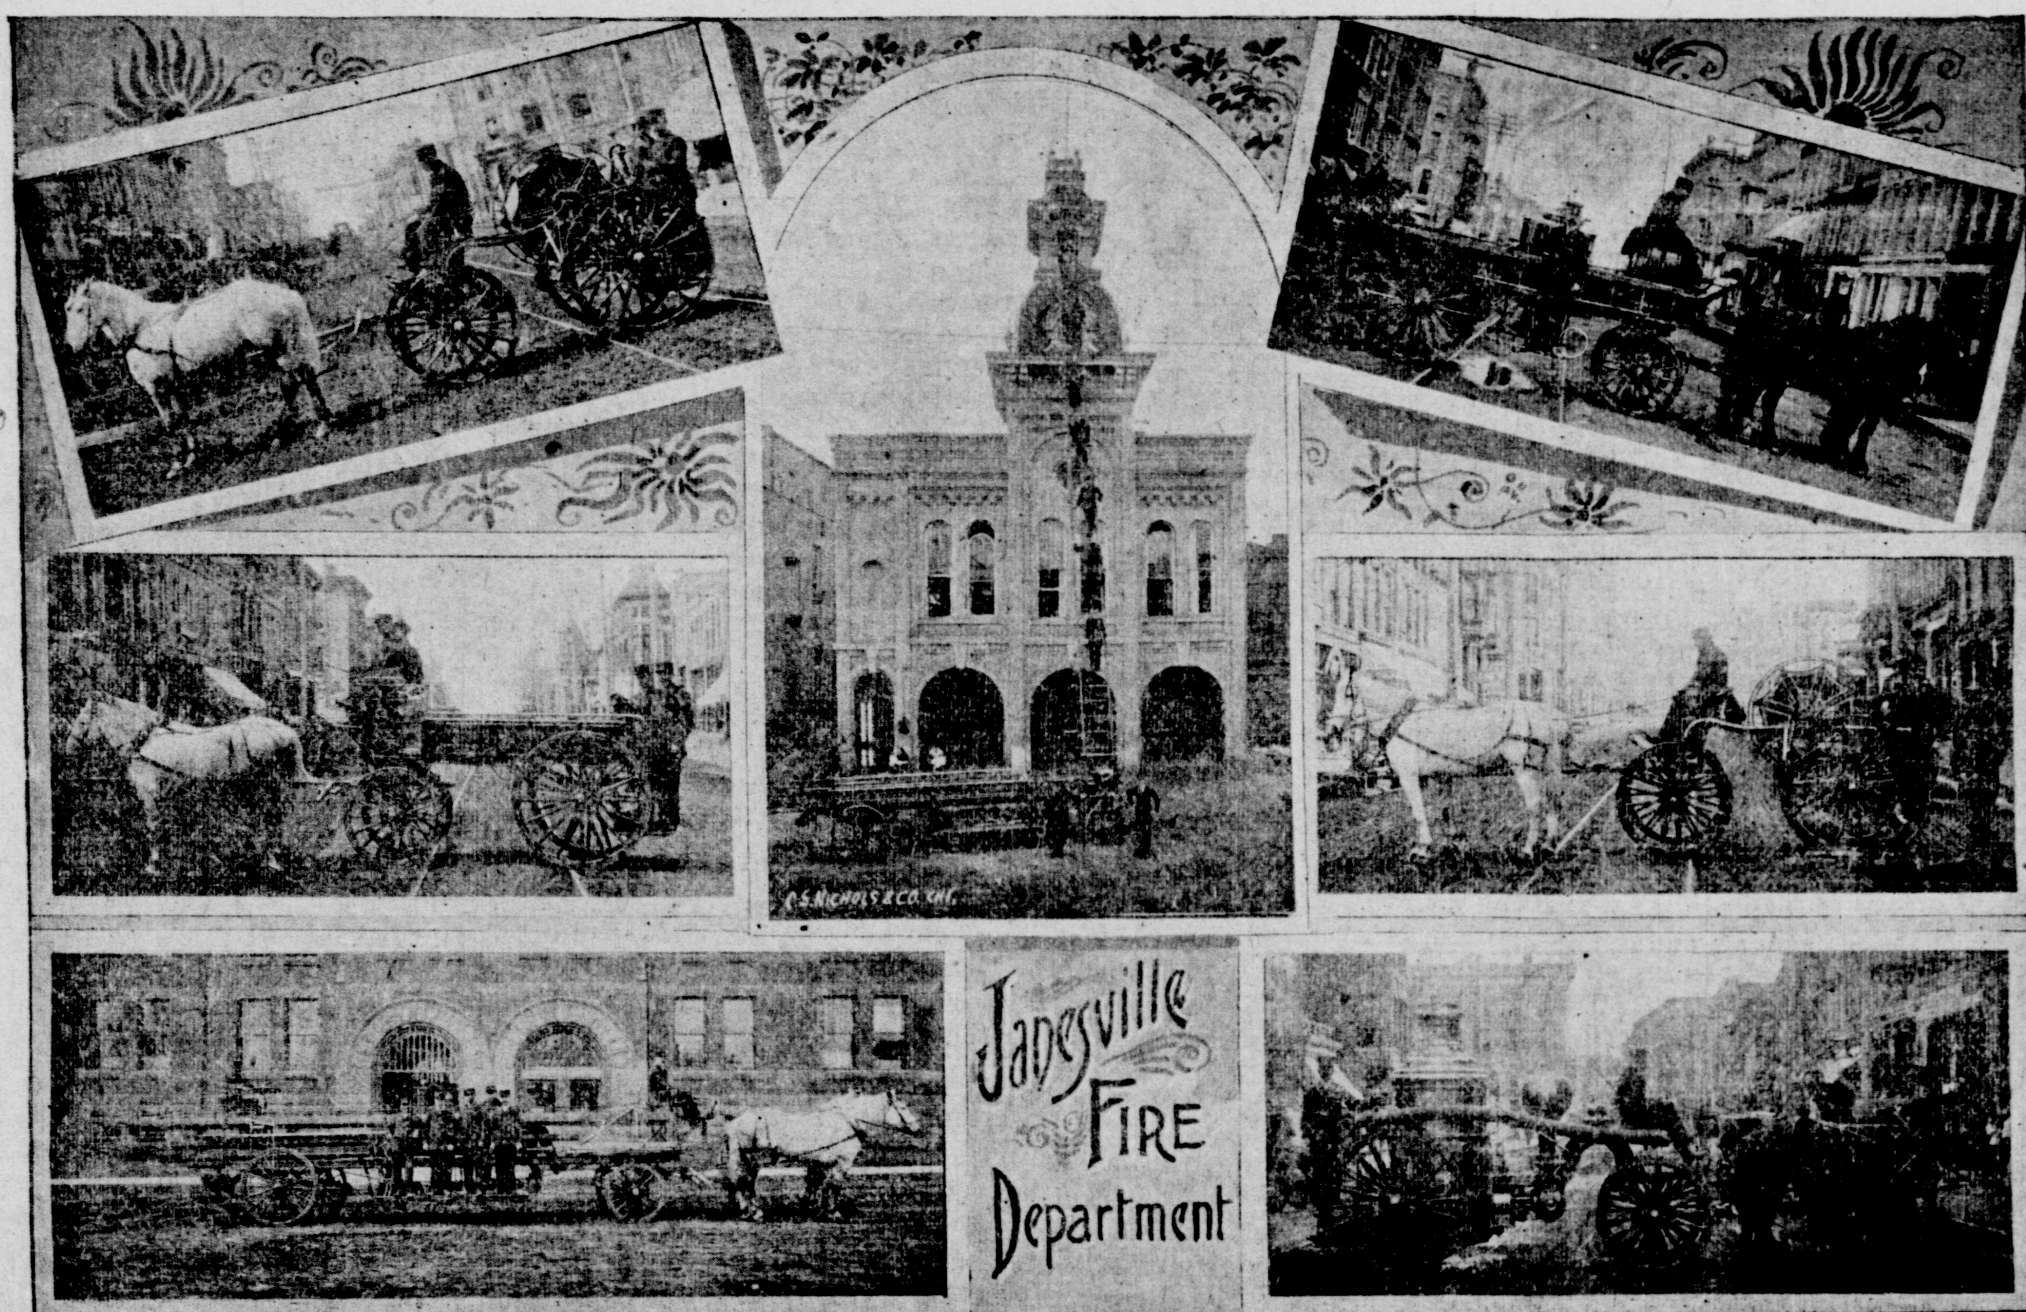

George Peters, married; burned about body, face and hands.

Fireman Jones; prostrated in the office of the company while fighting the flames.

An explosion in the Michigan City Sash and Door company's plant resulted in the fire which was subdued only by the persistent efforts of every able-bodied citizen here. For a time it looked as if the entire city was to be sacrificed. The fire was beyond control, the wind high, the volunteer firemen unable to make any impression upon the flames which burned hose and apparatus and pushed their way toward business houses and residences. A call for assistance telegraphed to Hammond, Ind., was answered unfavorably by the officials of that place, who replied that they could not spare any of their apparatus. A message to Chicago for help brought an immediate response from Chief Swenke, who started three engine companies at once. The engines and hose carts were loaded, the track cleared for a rapid run and everything made ready, when word came that the fire was under control.

The losses are estimated as follows: Sash, Door and Blind company, \$50,000; insurance \$36,000; A. R. Colburn, \$1,500; no insurance; George A. Stalger, \$3,000; insurance, \$2,500; Thomas Shreve, \$3,000; no insurance; Bert Angier, \$1,000; no insurance; Charles Dayhoff, \$500, on two houses; no insurance; William Lindell, \$1,000, on two houses; David Talbot, \$500; insurance \$400; Mrs. Halleck, \$100; no insurance; W. D. Bailey, \$600; insurance \$500.

**JANESVILLE'S** Fire Department broke all records at the test drill last evening. Summarized the time made was as follows: Janesville Fire Police—Run from East Side fire station to residence of S. B. Smith, distance, twelve blocks, lay two hundred feet hose, and throw water on the Smith residence. Driver, Benjamin Barriage. Hoseman, Thomas Abbott. Time from tap of bell, 4 minutes and 3 seconds.

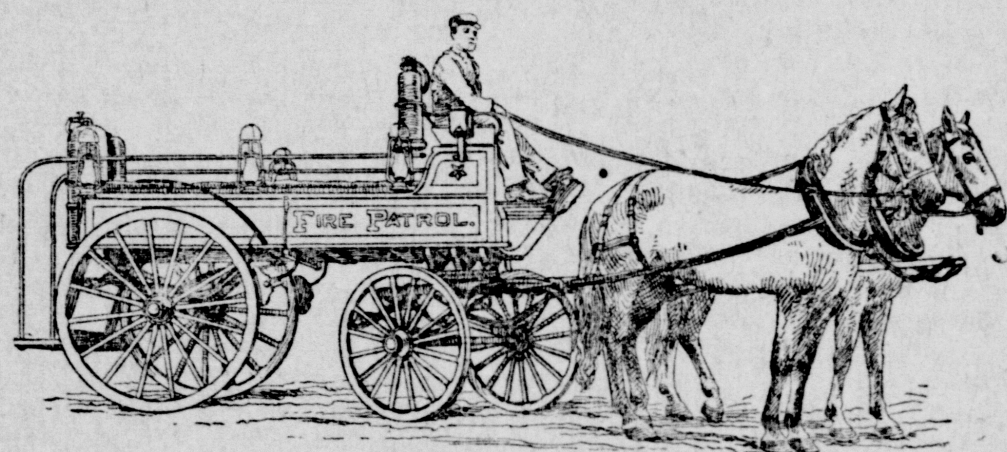

In response to the "4-4" call, the time made was as follows:

Hose Company No. 1—Run from West Side fire station. Distance fourteen blocks. Driver, William Scott. Time, 3:53.

Hose Company No. 2—Run from East Side station. Distance twelve blocks. Driver, Patrick Gallagher. Time, 3:12.

Hose and Ladder Company—Run from West Side station. Distance fourteen blocks. Time 3:59.

Box 311 was pulled by Miss Ada Thoroughgood, daughter of Mayor and Mrs. Thoroughgood, at 7:15 o'clock, sharp, and Timers O. F. Nowlan and Dr. Whiting snapped stop watches. The patrol team shot out of the station a few seconds later. Driver Ben Barriage had the reins. Driver Arthur Ott was on the seat with him.

The Team That Made The Record.

and Hoseman Thomas Abbott was on the foot board. After crossing Milwaukee street, Driver Barriage changed his bell, and the straight run down Main street to Oakland avenue was made in quick time. Turning up on the sandy grade to Jackson street, from Oakland avenue to Garfield avenue, on Jackson street, was also an up grade, but the horse was laid, and water thrown on the house, in just four minutes and three seconds from the first tap of the bell.

The "4-4" call was then turned in, summoning the balance of the department. The men took such routes as

they pleased, their time being as above stated.

Driver Gallagher went up Milwaukee street to Jackson street, and then south to the box.

Driver Scott went up Milwaukee street to East street, south on East street to St. Lawrence place; east on St. Lawrence place to Jackson street, and thence south to the box.

Driver Champion followed about the same route.

Hundreds of people were gathered along the streets traversed by the department. The sight was an inspiring one, and the test demonstrated to many people that the department

could make time that seems almost wonderful.

Mr. and Mrs. Smith served lemonade to the members of the department.

Chief Engineer Spencer, elated at the success of last night's drill, now makes this statement: that on a practice drill, the Janesville fire department can put a stream of water on any house (which can be reached with two loads of hose—1600 to 1800 feet) on the east side of the river south of Benton avenue and north of Sharon street, west of Ringold and Garfield streets; or on any house on a plotted lot on the west side of the river which can be reached with a like amount of hose, in less time than ten (10) minutes, day or night, medium roads. No one to be apprized of the drill except the party desiring the statement, the mayor, the chairman of the fire and water committee, the chief engineer and the time keepers, and they to be under honor not to communicate directly or indirectly, with the fire stations or with other parties regarding the time or place to drill. The chief further says that the fire department can put a stream of water on Stanley B. Smith's residence in Forest Park, any hour of the day or night, medium roads, men all in bed, inside of four minutes.

**Who Can You Believe ? ? ? ? ?**

Were you to read the catalogue of every piano manufacturer in the United States you would find that about all claim to make the finest piano, the cheapest often making the greatest claims and having the most gilt upon the covers of their catalogues. You ask who can we believe. False prophets have made confusion in other days than these, so beware.

A personal examination of the interior of the many pianos will convince you that the REED & SONS PIANO is the finest finished piano in the world. You will admit this as you look into the matter more closely.

Please call or write for circulars.

## THE PRICE OF WOOL HAS TAKEN A JUMP

**NEW TARIFF HAS A BENEFICIAL EFFECT.**

Increase of Four Cents a Pound Since July 1—A Milwaukee Dealer Predicts a Steady Revival in Wool Production—The Turns of Prices For Twelve Years Set Forth.

The effects of the new tariff law are felt by Wisconsin sheep herders. The price of wool has been steadily increasing for the past two weeks and is now from 4 to 6 cents higher than it was July 1. Last August, Wisconsin medium wools sold as low as 11 1/2 cents per pound. The same are worth today 18 cents per pound.

Herman Reel, the president of the Milwaukee Produce company, said yesterday: "The rise in the price of raw wools began to be felt last October. Since then it has continued almost without setback, save for a short period in May, when it was evident that through the invasion of the house large quantities of foreign wool would be imported before the Dingley bill would become a law. On account of these heavy importations it is my opinion that wool growers will not get the full benefit of the tariff for some time to come. The clip of Wisconsin wool has declined in the last four years about 50 per cent. compared with that previous to the passage of the Wilson tariff."

True of Other States  
"What is true of Wisconsin is true of other states and it is problematical whether this decrease in the American clip will or will not have the effect of offsetting the heavy importations. The new tariff will at once stimulate the farmers to enlarge their flocks."

Awarded  
Highest Honors—World's Fair

**DR. PRICES' CREAM BAKING POWDER**  
MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.  
**40 Years the Standard.**

There are other allied reasons in view of which I am very optimistic on the question of wool. The stimulating effect of the tariff, which is just now being felt by the trade and commerce of the country will increase indirectly but inevitably the demand for wool and wool products. The woolen machinery of the country, two-thirds of which has been idle during the past four years, is now running at full force. While this year's grain crop promises to be bountiful, grain prices have nevertheless soared a sharp advance owing to crop failures in foreign lands, and as this comes before the farmer has marketed his crop the benefit to the country will be immense. It will enable the farmer not only to become a larger consumer of woolen goods, but will also encourage him indirectly to invest in sheep.

Low Prices of 1884-5.  
"In 1884, when Cleveland was victorious over Blaine, unwashed medium wool dropped from 25 to 20 cents, and sold as low as 18 cents in the spring of 1885. When, under Cleveland, it became apparent that the republican majority in the senate would be an effectual block to democratic tariff legislation, this same class of wool steadily advanced and sold as high as 27 cents in the spring of 1887. But when, in the fall of that year, Cleveland issued his famous free trade message and the republican majority in the senate had dwindled to one, the price dropped to 20 cents. It advanced again with phenomenal rapidity when Harrison defeated Cleveland in 1888. In the week following that election it took a leap of 6 cents. While the McKinley bill was pending, immense quantities poured into the country. These importations caused a glut in the market which was intensified by the unwise action of congress in postponing the date for the enforcement of the tariff on raw materials. The Dingley tariff, by virtue of its immediate operation, will prove as a protective measure to the raw materials, far more effective than the McKinley tariff."

### TESTED THE WATER PLANT.

Edgerton's System Will Afford Excellent Service It Is Said.

The Edgerton Water Works plant constructed by W. H. Wheeler & Co. this city was given an official test Tuesday, with highly satisfactory results to all interested. The contract called for two one inch streams 100 feet high, and this was accomplished by stand pipe pressure alone. With the direct pressure streams were easily thrown over the highest church spire. The plant has a tower and reservoir that furnishes pressure of 75 pounds at the hydrants. The pumps are improved steam pumps and the supply is an artesian well 1,000 feet deep.

TEA meeting.  
PRAYER meeting.

## NAME REV. DR. EATON AS THE CANDIDATE

**IOWA PROHIBITIONISTS CHOSE HIM FOR GOVERNOR.**

He Was a Dark Horse Candidate, But Gained the Ear of the Convention By His Speech As Temporary Chairman and Was Nominated With Ease.

Dr. Ephraim Llewellyn Eaton, formerly of this city, the Methodist minister whose attacks on the Milwaukee charity ball three or four years ago, brought him prominently into public notice as an extremist in language, was yesterday nominated for governor of Iowa by the prohibition state convention.

On the same ticket a woman, Mrs. M. H. Dunn of Burlington, is a candidate for state superintendent. The ticket has scarcely any chance of election; there are several tickets in the field in that state. Dr. Eaton was a candidate for lieutenant-governor of Wisconsin last fall, and received 8,840 votes, leading his ticket by from 700 to 800 ballots. He left the state in the October before the election occurred, and made, in fact, no campaign speeches as far as known.

Now Resides in Iowa.

Dr. Eaton has resided in Iowa less than a year. He is pastor of the First M. E. church in Des Moines, one of the best Methodist pulpits in the state. His nomination was a surprise to the convention. He was elected temporary chairman and electrified the gathering by his address in that capacity. His name was sprung as a dark horse at a time when S. P. Leland of Charles City was conceded the nomination, and like William Jennings Bryan, he was nominated in a whirlwind of enthusiasm.

The platform is confined to temperance, woman suffrage and fair elections.

A resolution to appoint committees to raise money for the erection of a monument over the grave of the Rev. George C. Haddock near Racine, Wis., was carried. Mr. Haddock was murdered at Sioux City by men whom he offended by his temperance utterances.

Sermon Made Him Famous.

Dr. Eaton was one of the leading Methodist preachers in the state when he left to go to Iowa. He preached in the Wisconsin conference for twenty-five years, occupying pulpits at Madison, Beloit, Milwaukee, Racine and other places. His furious attack on the charity ball held at the Academy early in 1894 made him famous. In some parts of the country they were talking yet about it. He was at that time pastor of Washington Avenue M. E. church. He incorporated in his services some extravagant figures on

the amount of champagne consumed at the function. He demanded a discontinuance of charity balls.

The ball that he objected to was given during the first winter of the Milwaukee soup kitchens, and about \$2,500 was realized and divided among the charitable institutions.

An Eloquent Preacher

His tirade displeased many liberal minded persons, and there was hardly a masquerade the winter after the sermon, without a hit at the "Charity ball preacher." Subsequently he was stationed at Racine and the Washington Avenue pulpit was filled by the present pastor, the Rev. George H. Trevor.

Dr. Eaton is an eloquent preacher and a fine singer. He was during his service there one of the most popular speakers at the Milwaukee afternoon meetings of the Young Men's Christian association. His temperance principles have always been pronounced, and the party in Wisconsin will watch the campaign with interest.

Rev. Dr. Eaton will preach at Court Street M. E. church next Sunday, it is announced. Mrs. Eaton and children are now visiting Janesville friends and relatives.

Henzies' Vinegar.

We have just received 15 barrels of the famous Henzies strictly pure elder vinegar, that is so popular with every housekeeper for either pickling purposes or for table use. Henzies vinegar is unquestionably the best and purest on the market, and when once used people will have no other. Sanborn & Co.

THIS DAY IN HISTORY

1565—Mary, queen of Scots, married Lord Darnley.  
1794—Thomas Corwin, American statesman, born in Bourbon county, Ky; died 1865.  
1833—William Wilberforce, English philanthropist, died; born 1759.  
1857—Dr. Thomas Dick, Scotch philosopher, died; born 1774.  
1867—Charles Anthon, an American classical scholar, died in New York; born there 1757.  
1892—Thermometer 105 in New York city; 185 people prostrated and 20 deaths.  
1894—John A. McDougal, a once famous artist and friend of Poe, Willis and Irving, died at Newark, N. J.; born 1807. Archduke William Francis Charles of Austria died in Vienna.  
1896—Robert Garrett, ex-president of the Baltimore and Ohio railroad, died in Baltimore; aged 50.

WISCONSIN FEELS THE IMPULSE.

Wisconsin wool has gone up six cents a pound since July 1. This is only part of the benefit conferred by the Dingley law for the heavy advance importations of wool which has supplied manufacturers for several months.

Prominent Milwaukee produce men predict that the new tariff will stimulate Wisconsin farmers at once to enlarge their flocks.

The stimulating effect of the tariff, which is just now being felt by the trade and commerce of the country will increase indirectly but inevitably the demand for wool and wool products.

Wisconsin wool growers remember that in 1884, when Cleveland was victorious over Blaine, unwashed medium wool dropped from 25 to 20 cents, and sold as low as 18 cents in the spring of 1885. When, under Cleveland, it became apparent that the republican majority in the senate would be an effectual block to democratic tariff legislation, this same class of wool steadily advanced and sold as high as 27 cents in the spring of 1887. But when, in the spring of that year, Cleveland issued his famous free trade message and the republican majority in the senate had dwindled to one, the price dropped to 20 cents. It advanced again with phenomenal rapidity when Harrison defeated Cleveland in 1888. In the week following that election it took a leap of six cents. While the McKinley bill was pending, immense quantities poured into the country. These importations caused a glut in the market which was intensified by the unwise action of congress in postponing the date for the enforcement of the tariff on raw materials. The Dingley tariff, by virtue of its immediate operation, will prove as a protective measure to raw materials, far more effective than the McKinley tariff.

There is little probability of the United States making another free trade experiment until there is a new generation of voters. Four years of hard times and business troubles has proven an ample sufficiency for one generation.

A bumper wheat crop is beginning to move from southwestern shipping points. The price paid will make it very hard in the future for Mr. Bryan to deceive southwestern farmers as to the relations between wheat and silver.

In accusing the United States of scheming with Russia to get up a claim that the Yukon gold section is within the boundary of Alaska, England judges by what it would do under similar circumstances.

Rev. E. L. Eaton's canvass in the Iowa state campaign will not lack interest. The way he rattled the dry bones in Milwaukee when the charity ball was up for discussion is still remembered.

The coal miners would better beware of the confidence of Eugene Debs, now running at strike speed. For a man who poses as a leader, Debs is the greatest hoodoo of the time.

The closer you study the Dingley tariff law the more you will admire the wisdom of its framers, and their fairness in providing protection for American industries.

Our Japanese friends are protesting entirely too much about our annexing Hawaii. They would better put in their time doing something more promising of results.

The Maryland democratic convention was devoted warmly to showing how much the delegates thought of Gorman and how little they thought of Cleveland.

No extra session of congress was ever kept so nearly confined to the single purpose for which it was called as the one recently closed.

MARCH ON THE MINES

Strikers Move in a Body, and Serious Trouble Is Anticipated by the Officers.

Pittsburg, July 29—Strikers to the number of several hundred today marched on the mines at Oak Hill, Plum Creek and Sandy Creek. Trouble of a serious nature is feared, and developments are awaited with great interest.

BICYCLE PARADE LAST NIGHT

Local Riders Made a Fine Appearance Last Evening.

Janesville people saw the first bicycle parade ever given in the city last evening. With lanterns gleaming and bells ringing, the procession moved down the street. Alderman George M. McKey and Richard Valentine led the way, while Dr. Joe Whiting and J. Glen Delong were the marshals. Red lights were burned as the parade passed the stores of Stearns & Baker, H. E. Bancous & Co. and C. D. Stevens. The parade formed in front of the High school and moved north on High street to Mineral Point avenue, west on Mineral Point avenue to Washington street, north on Washington street to the Corner grocery, back on Washington to West Bluff, east on West Bluff to Madison, north on Madison to Jackson, south on Jackson to Wall, west on Wall to High, south on High to Milwaukee, east on Milwaukee to Main, south on Main to Racine, back on Main to Court, west on Court and Pleasant to Franklin, south on Franklin to Holmes, west on Holmes to Jackson, north on Jackson to Milwaukee, east on Milwaukee to Main, south on Main to Court street, where it disbanded.

SENT TO THE REFORM SCHOOL

George and Albert Snow, Brothers, Committed to the Care of the State.

"George and Albert Snow, brothers and boys of the tender age, fatherless, and whose mother can neither properly support or manage them, were sent to the reform school today on a commitment issued by Judge Booth," says the Beloit Free Press. "The older, George, is already on parole from the school, but he shows by his conduct that he needs to be under restraint a little longer. Albert, the younger, was committed on the charge of incorrigibility. He spends most of his time in the alleys and streets, begging. It was felt that it was best for them to be confined in the State school. George was arrested Tuesday night and put in the lockup, but two ladies took pity on him and promised to deliver him to the officers next morning if he could be released. There was a pathetic scene on the street when the younger was compelled to part with his mother. Ladies who heard the child's lamentations wept with him out of sympathy."

HOLD RALLY AT OTTER CREEK

Sunday School Workers to Meet on Sunday, August 8.

President Wright of the Rock County Sunday School association, announces that the next rally will be held at the Unitarian church at Otter Creek, north of Milton, on Sunday, August 8. The Sunday schools of the town of Milton and Johnston are earnestly requested to be present, and an invitation is also extended to all the people in the country to attend. It is believed, therefore that the attendance will be large.

THE PICNIC WAS A SUCCESS

Gathering At Oak Lawn Grounds Was Very Enjoyable.

With the serving of a supper at 7 o'clock last evening, the old settlers picnic given on the Oak Lawn hospital grounds came to a close. The picnic was in honor of John Roberts now of Chicago. Between thirty and forty people were present who were in the county in the fifties and among those present from out of the city were Mrs. L. Davies of Denver and Dr. E. A. Rogers of Iowa City, Iowa.

CITY NEWS IN A PARAGRAPH.

Mrs. E. O. Kimberley is in Brodhead.

GEORGE O. FORD is up from Chicago for his vacation.

DOG days are a couple of weeks ahead of their schedule.

THE Coterie club will give a party up the river Friday evening.

A STRANGE disease has made its appearance on the leaves of maple trees.

How to eat corn from the cob genteely is again agitating fashionable society.

WATERMELONS are arriving more frequently from Virginia and other southern states.

JANESVILLE people should be proud of the fire department. And it is run cheaper than any other department in the state, too.

THE Imperial band concert drew an immense crowd to the Court House park last evening, and the music was greatly enjoyed.

THE C. & N. W. switch engine and freight train No. 74, collided near Leyden on the Evansville line yesterday afternoon. No one was hurt, but the engines were extensively damaged. The switch engine was hauling a work train in charge of Yardmaster David Griffin. Engineer Thomas King and Fireman John Moran, were in charge. Train No. 74 was in charge of Conductor Tillotson and Engineer Britton.

FOUND A PECULIAR "FRUIT."

Fort Atkinson Man Discovers Something Unusual at Koshkonong.

Hi. Drake o Fort Atkinson, recently discovered, growing on rushes at Lake Koshkonong, a curious egg-shaped vegetable formation, apparently over ninety-nine per cent. water, and surrounding the rush and supporting itself by it. It has a specific gravity only slightly less than water, "barely floating, and after removing the skin is perfectly transparent, and of a hard, jelly like consistency. The outer coat is figured, and upon being rubbed off, the convolutions in the transparent surface exactly coincide with the markings of the coat, which are leaf like and very small. Mr. Drake exhibited several specimens. One of them weighed about four pounds. He afterwards cooked a portion of one and found it not a bad tasting dish.

THE VALLEY OF THE SHADOW

Miss Kittie Rose.

Milton, Wis., July 29—Miss Kittie, daughter of N. M. Rose of Rock River, died of peritonitis, being ill but a short time. She was a teacher in the public schools.

THE funeral of Cora Benash was held from the town of Center yesterday.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood. Quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received: Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me.

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

And hundreds of articles too numerous to mention. New goods coming every day.

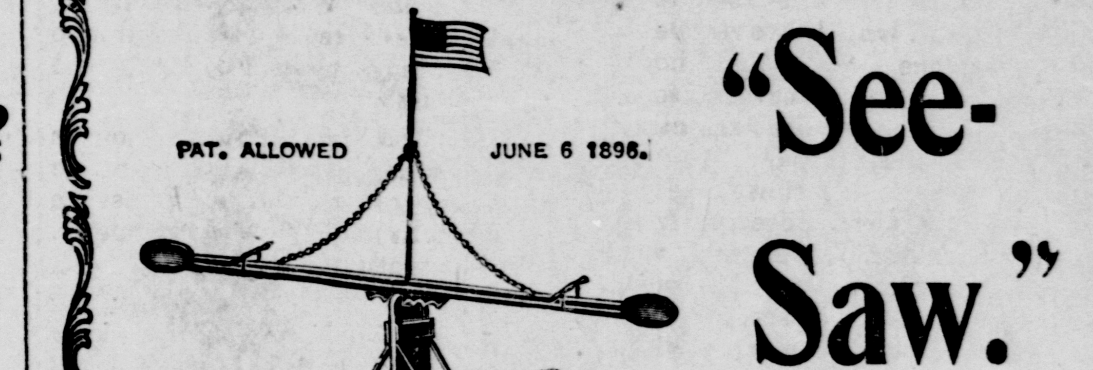

If you haven't already visited the new store come in at once and get acquainted. You're welcome whether you buy or not.

Goods Retail at Wholesale Prices.

The JANESVILLE LEADER

Corn Exchange Square. Corner Milwaukee & Franklin Sts.

The Children's : Delight,

The most fascinating toy and pastime ever put on the market for the children. Simple and durable. Can be put up on the piazza as well as the lawn and can also be used in the parlor without the least damage to the carpet. Can be adjusted so that children of unequal weight can "teeter." Mothers can keep the little ones at home and amused for hours at a time. Prices very low—\$2.00 and \$4.00. See them set up at the Rink building on South River Street.

C. H. BELDING HAMMOCK SWINGS, HAMMOCK FRAMES.

Special Price

on a . . . .

Wolff-American

. . . Used one day.

The wheel is a bargain. I shall not have it long. Wolff-Americans have outsold every other high grade wheel in Janesville this summer.

Why? Everyone knows that steel is the foundation of a bicycle.

Wolff-Americans are built by the most renowned manufacturers of steel and steel wire in the world. KNOWLEDGE OF STEEL and experience in its manipulation is the scientific basis of good bicycle building.

25 Years' Experience Counts.

W. W. WILLS. Agent Wolff-American Bicycle. North River Street. Janesville.

Baked Hams

Are as much better than boiled hams as a piece of roast beef is better than a soup bone. For sale only by

BEAUMONT DEFOREST.

A Contrast In Laundry Work

is noticeable in the way different laundries do up their linen. When you see an exquisite and perfectly laundered shirt, collars and cuffs walking down our street, that has the proper color and lustre, you may know it was done up at the

RIVERSIDE STEAM LAUNDRY.

If you are not a patron now, COME.

At Cost.

MRS. SADLER.

Opposite postoffice. JANESVILLE.

## ECLIPSE WAS SEEN BY MANY PEOPLE

SMOKED GLASS WAS POPULAR  
TODAY.

It Was Visible Between the Hours of Seven and Ten O'clock, and Was the Only One That Will Be Seen This Year—Looked Like Fiery Crescent.

Did you see the eclipse?  
Many people did.  
The times of the different phases, given in standard nineteenth meridian time, were as follows:  
Beginning, 7 hours 34 minutes, 6 seconds a. m.  
Ending, 9 hours 48 minutes 46 seconds a. m.

The annulus, or ring shadow, struck the earth at a point 1,200 or 1,300 miles west-southwest of the Town of Tepe in Mexico, which lies directly in the path. It then crossed Mexico touching Tampico on the eastern coast, traveled across the Gulf to Cuba, where it touched Havana, and then runs in nearly a direct line to Toronto, on Cape St. Roque, the most easterly point of South America. It left the earth at a point two thirds of the way from Cape St. Roque to the Cape of Good Hope.

Only Americans Saw It.

Inhabitants of the American continent were the sole observers of today's solar phenomenon. The district in which it was visible includes all of the United States, the southern half of British America, Mexico and the northern two-thirds of South America. From the middle of the Atlantic to a point in the Pacific ocean about 200 miles west of San Francisco the shadow's course will lie. To observers within the districts bounded by an imaginary line drawn from the central part of New Mexico to Tampico and thence to Havana, the Windward Islands and Lake St. Roque the outer edges of the sun will assume the appearance of a ring of fire. This area of the Gulf coast includes the central part of the districts covered by the eclipse, which will be partial only.

No Total Eclipse.

To the fact that the moon appears smaller at this time than the sun is due the lack of totality in the eclipse as viewed from the earth, though to the putative inhabitants of some of the other planets the eclipse may easily be total. On this sphere there was, however, no region of total eclipse. And even in the Central American districts from which the annular band can best be seen, the fiery ring lasted for only a few minutes. Not more than one-fifth of the face of the sun was obscured in this part of the country.

The actual interval of time from the instant of first visibility in longitude 109 degrees 46 minutes west, latitude 16 degrees 57 minutes north, to the moment when the last bit of shadow glances sideways off the earth at longitude 10 degrees 6 minutes west and latitude 21 degrees 32 minutes south, was 5 hours and 50 minutes.

Total Eclipses Rare

Away back in 1869 the last total eclipse of the sun which was visible in Illinois took place. Since then, however, there have been several total eclipses which were visible from other parts of the United States.

The most notable of these was the eclipse of 1878. It was observed from the neighborhood of Denver and was fruitful of scientific results. Far more frequent are partial eclipses, the area which these cover being very wide. A total eclipse is a rare occurrence, and it is not often that the shadows from two of them are received by the same locality in a hundred years.

## BEHRENDT FINED \$10 TODAY.

Punching Timothy O'Rourke Was An Expensive Pastime.

When George Behrendt landed on Timothy O'Rourke's nose several days ago, with sufficient force to bring tears to Mr. O'Rourke's eyes, he didn't realize that the job was to be so expensive. This morning, in the municipal court, he was on hand and told his story while Mr. O'Rourke was there to give his version. The court, after hearing the evidence, found Mr. Behrendt guilty and sentenced him to pay a fine of \$10 and costs, or to be confined in the county jail for a period not to exceed ten days.

## PIG ROAST THIS AFTERNOON

Jolly Party Gathered at Crystal Springs Park Today

A pig roast was held at Crystal Springs park this afternoon. At 2 o'clock the steamer Columbia left her dock comfortably filled with East Side ladies each of whom carried a well filled basket. A ride up the river was first on the program and this was followed by the serving of the repast of which roast pork was the "staple article." The men made the trip up the river late this afternoon and will accompany their wives and sweethearts home this evening.

## SELLING SOME TOBACCO NOW

Several Small Deals Are Made by Local Firms.

Business among the local tobacco dealers this week has showed a revival, although sales are not of a large magnitude. J. F. Willey, editor of The Leaf, says the present outlook is that better times are not far off. The sales recorded of late by the local dealers are: George H. Rumrill, 71 cases of 94 and 95 goods; J. A. Ryan, 60 cases of old stock; James Grundy, 68 cases of fillers; A. L. Fisher, 25 cases of old; Robert Erier, 18 cases.

## NEWS HEARD ABOUT THE CITY

FRESH fish at Sanborn's.  
MONEY to loan. S. D. Grubb.

This is prayer meeting night.  
GOLF players were out this afternoon.

Five prisoners are now enjoying life at the jail.

The pension board met today at Dr. Whiting's office.

DELL CANNON has been ill as the result of a slight sun stroke.

ACME tomatoes 5 pound baskets, 15 cents per basket, at Sanborn's.

HEINZ'S famous pure cider vinegar 25 cents a gallon at Sanborn's.

FOR RENT—Cheap small flat in Grubb block. Water, gas, etc.

SANBORN'S picnic list on page 8 is popular with people who take a day off.

THE launch Lorna was up the river last evening, with a party of gentlemen.

WORKMEN commenced the laying of the new curb stone on Jackson street today.

FRESH caught white fish, trout, bull heads, and pickerel for Friday, at Sanborn's.

A PARTY of Presbyterian church people spent the day at Idlewild park yesterday.

TWO days more for the elegant \$125 side board, last call, two days more. F. S. Winslow.

WHITE fish, trout, bull heads and pickerel for Friday. All caught fresh. Sanborn & Co.

H. G. ARNOLD and W. E. Russell and families are camping at "Robinson's" up the river.

MRS. W. H. Judd entertained a few ladies last evening, in honor of Mrs. Butterfield, of Minneapolis.

EASY enough for the camper to select a suitable lot of eatables from Sanborn's list. See page 8.

HEINZ'S cider vinegar sold for 30 cents per gallon; we have reduced it to 25 cents. Sanborn & Co.

NEW lot of Heinz's baked beans and tomato sauce and Heinz's catsup just received. Sanborn & Co.

MRS. W. B. Conrad left this morning for Baraboo, and will visit in La Crosse and Minneapolis before returning.

THERE will be no band concert next week on account of the fact that three members will go to Camp Douglas.

THE All Souls Church Try society were entertained by the Idlewild Park association, up the river, Tuesday.

T. P. BURNS is unloading stocks of summer goods at his special sale. Nothing like low prices to make goods sell more rapidly.

FIVE pound basket of Acme fancy, red ripe tomatoes 15 cents per basket. Nicest brand of this fruit on the market. Sanborn & Co.

THERE will be prayer meeting at the Congregational church tonight, at 7:30 o'clock. Subject: "Some Queries Concerning the Church."

FARMERS of the town of Janesville, please cut the remainder of your notions weeds without further delay, by special request. O. N. Dutton, Weed Commissioner.

CARTER & Hazelton have adjusted the loss on the "White Meat Market" on South River street and the damage to the building is placed at \$214, and on the stock \$35.

FOR the first time in many months the water wheels in the power house at Monterey owned by the Janesville Electric Light and Power company, were set to motion yesterday.

INVITATIONS have been issued by Mr. and Mrs. C. W. Jackman, Miss Rowe and R. W. Jackman for a lawn fete to be given at the Jackman home on Division street, Thursday evening, August 5.

LANDLORD L. O. Brewer's favorite horse fell in a shallow well yesterday afternoon, and for a time it looked as though its life was in danger, but after hard work it was removed from the perilous position.

WORK is being pushed on the power station of the Janesville Electric Light and Power company at Monterey, and quite a crew of men are employed. Electrician Galloway and Secretary Loring are in charge.

THE contract for carpenter work on Arthur Harris' house has been let to F. Hurd and the masonry contract to E. Rathern. The house is to be a very handsome one, the interior being finished in quarter sawed white oak. The cost of the house is estimated at \$6,000.

THE water company's men finished the work of laying pipe on Mineral Point avenue last night, working until after 7 o'clock. When they got through several residents who inspected the street, declared that they favored the nomination of Superintendent Hyster for street commissioner.

## SHIP THE SUPPLIES TONIGHT

Carload of Goods Ready for the Janesville Light Infantry

Quartermaster Edwin Lee and assistants were busy loading a car with supplies to be used by the Light Infantry at Camp Douglas. The car will be sent out this evening via the St. Paul road. Tomorrow evening the advance detail will leave on the C. & N. W. midnight passenger. The men detailed are Burt Gilbertson, Burt Hill, Edwin Lee, Harry Collins and William Brooks. About forty-eight members of the company will leave the city on a special train Sunday morning.

Miss Genevieve Rich entertained a few friends at her home on Court street, after the bicycle parade last evening, and the event was a very pleasant one.

## PROGRAM OF RACES HAS BEEN MADE UP

SPEED CONTESTS AT THE  
FAIR GROUNDS.

Purses Will Be One Hundred Dollars Each, With the Exception of the Event For Gentlemen's Drivers—Entries Will Close On Monday, August 2.

The program for the day's racing under the auspices of the Janesville Driving club, on August 6, has been made out, and entries will close on August 2. The officers of the club are A. E. Rich, president; A. F. Phillips, secretary; and Albert Schaller, treasurer. The program:

1. 3:00 class trot, purse, \$100  
2. 2:45 class trot and pace, purse, 100  
3. 2:35 class trot and pace, purse, 100  
4. 2:25 class trot, purse, 100  
5. Gentlemen's road race, purse, 25

The last race is for horses owned in Janesville, used for drivers, and not

A. E. RICH.  
[President of the Driving Club]

trained this year. It will be one-half mile heats, two in three, to wagon.

The American Association rules will govern and all races except No. 5 will be mile heats, three in five. Five per cent. entrance will be charged and 5 per cent. additional from money winners. The usual weather conditions are attached. The money will be divided 50, 25, 15 and 10 per cent. The right is reserved to declare off races not filling satisfactory. If any class does not fill, nominators have the right to start in any other class to which they are eligible.

## MR. AND MRS. KRONITZ'S PARTY

They Entertained in Honor of Miss Keith, of Cedarburg.

In honor of Miss Emma Keith, of Cedarburg, a delightful social event was given Tuesday evening at the South Main street home of Mr. and Mrs. Otto Kronitz. After the serving of a tempting supper, the card tables were brought out, and it was a late hour before the festivities came to a close. The present were:

Messrs and Mesdames—  
Otto Kronitz.  
F. A. Nethorpe, Madi Thompson, Chicago.  
son.  
Misses—  
Susie Nisbet, Emma Falter,  
Augusta Kronitz.

Messrs  
Henry Hauke, Henry Kronitz,  
Herman Hauke, Louis Alberta,  
Edwin Falter.

## FACTS FOR THE KLONDIKERS

MRS. WILLIAM BUCK and son Frank, of Louisville, Ky., are the guests of Mrs. Buck's parents, Mr. and Mrs. Edwin Cunnell.

SISTERS Mary Joseph and Mary Care of Independence, Iowa, who have been the guests of local friends, returned home today.

## CHAMPION LADY CYCLER HERE

Miss Lillian Brought, of Chicago, Holds the Amateur Record.

Miss Lillian Brought, the champion amateur lady bicycle rider of Chicago, is the guest of Mr. and Mrs. Frank P. Williams, No. 260 South Bluff street. She holds three medals—for ten mile, five mile, and one mile races. The medal won in the ten mile road race is a beauty, and is worth \$75. The ten mile race was won in 25 minutes, 33 seconds. Miss Brought is not only a cyclist, but an acrobat and fancy dancer, having taken lessons under some of the best teachers in Chicago and abroad. She is preparing to give a carnival here, which has been produced in other cities with great success. About two hundred children will take part.

## WEDDING BELLS RANG TODAY

Berges-Krueger.

Miss Bertha Krueger and William Berges were married last evening at 8 o'clock at the home of the bride's brother, N. Krueger, in the town of Rock. Rev. O. J. Koerner, pastor of St. Paul's German Lutheran church, officiated, and Miss Lizzie Berges of Hanover, and Miss Amelia Krueger were bridesmaids, and William Barz and Albert Krueger groomsmen.

Both bride and groom are well known in this city, where both have resided. The groom is now the proprietor of the Hanover hotel. Among those present were Rev. and Mrs. O. J. Koerner, Messrs and Mesdames P. W. Knipp, L. F. Knipp, Charles J. Schmoekel, A. Krueger, Mrs. H. Meyer, Misses Bertha, Sadie, Ella, Anna, Lizzie and Laura Knipp, Anna Meyer, Annie Zemke, and Cora Schoof. Messrs. Philip Reus, John Wisch, M. Seidmore, Bert, George and Otto Schoof.

Mitchell-Treadway.

Harry Mitchell and Miss Mabel, daughter of Mr. and Mrs. B. D. Treadway, of Beloit, were married yesterday afternoon, the Rev. T. D. Peake officiating.

Heinz's Vinegar Reduced In Price.

Heinz's vinegar has always been sold in the city for 30 cents a gallon and considered cheap at that price. We have just received fifteen barrels of it, and will sell it at 25 cents a gallon, if you have never used Heinz's pure cider vinegar, you have missed an excellent article, as it is absolutely the best on the market. Send in your jars and let us fill them. Sanborn & Co.

## BUFFALO BILL SHOW COMES SEPT. 14TH

"ROUGH RIDERS" WILL BE  
HERE AGAIN.

Contracts Were Closed Today, and the Date Announced—Discussion About Location on Which Tents Will Be Pitched—Janesville a Banner Town For Them.

The Buffalo Bill Wild West show is coming.

The big posters that were displayed in all sections of this city in advance of the coming of Ringling Bros. circus meant just what they said—that the rough riders would "be here soon."

On Tuesday, September 14 the show will exhibit in this city both afternoon and evening. S. H. Seymour and E. H. Wood, advance representatives of the show, were today making contracts in the city and making arrangements for the appearance of the combination.

Mr. Seymour, who is one of the oldest advance showmen in the business, said that Janesville, last year, was "one of the bonanza towns of the season," and that she made the record.

"We do not expect such a large crowd of people at the show here this year, we will be satisfied if we can draw a house that averages with last season's daily attendance," remarked Mr. Seymour. "We will give you a show this year with several new features, and it will draw a crowd."

The show is now in New York state, and showed to day in Binghamton. It will come to Janesville direct from Milwaukee, in which city they show but one day.

There was considerable discussion today as to where the tents would be pitched. Propositions were made to have the show at the fair grounds, and also at Spring Brook.

After a conference this afternoon it was decided that the show will exhibit on the Fair grounds.

## HE GOT THE "BERRY CASES"

One of the Water Company's Men Made a Funny Mistake.

"Go down to the office cellar and get some danger signs," said Foreman Smith to one of the men employed in the ditch last night. "Then go to the yard south of the building and get six barricades."

"Yes sir" replied the man as he left.

Half an hour later the man returned with six big empty boxes piled in a wagon.

"What are you going to do with those boxes?" Superintendent Hyster inquired.

"Misthur Smith told me to go down an' get six berry cases, and with a note of triumph, 'begob there they do be!'"

The man had "mixed his orders." Inst ad of getting the danger signals from the water company's cellar, and the ready-made barricades for the open ditch, from the vacant lot, he had gone into F. S. Winslow's cellar, and gotten a wagon load of boxes that he declared to be "berry cases" although they were four feet square.

MR. and Mrs. Philip Pickering of Boone, Iowa, are the guests of Charles W. Schwartz, 302 Locust street. Mr. Pickering is a veteran railroad engineer and has been in the service for 36 years.

## FEARLESS ANIMALS.

Mexico's Wild Hogs, or Peccary, Run from Nothing Under the Sun.

From the St. Louis Republic: "The most vicious and fearless of the brute creation is the peccary, or wild hog of Mexico," said C. W. Bartlett, of Laredo, Tex., who is at the Planters'. "This animal seems utterly devoid of the emotion of fear. I have never seen it turn a hair's breadth out of its path for any living thing. Man is its special bete noir. It displays an intelligence in fighting the human strangely at variance with its apparently complete lack of any mental attributes, save the very lowest order of instinct. They are rarely found singly, but go in droves of from a hundred to thousands. Their ability to scent man is particularly marked. I have known a drove of them to scent a man a mile off and strike as straight for him as the arrow flies. There is no use to try to frighten them with guns. The cannonading of a full battery would have no more effect on them than the popping of a firecracker. The only thing to do when they get after you is to run away from them as fast as a horse can carry you. And then there is no certainty that they won't catch you. They are nearly as swift as a horse, and their endurance is as great as their viciousness."

"A friend of mine encountered a drove in a wild part of Mexico a few years ago, and his escape was miraculous. He very foolishly shot and wounded a number of them. Then he took refuge in a tree. The peccaries kept him in the tree all that day and through the night. They circled around the tree, grunting and squealing their delight at the prospect of a feast. He soon exhausted his ammunition, and brought down a peccary at each fire. But this had no terrors for the beasts. Along toward morning the brutes began to eat the ones he had killed, and when they had thus satisfied the cravings of their stomachs they formed in line and trotted off. If they had not had some of their own number to devour they would have guarded that tree until my friend, through sheer exhaustion, dropped from his perch and allowed them to make a meal of him. The wildcats and tigers that infest the Mexican wilds flee from the peccaries with instinctive fear, and even rattlesnakes keep out of their path."

## THE AFRICAN PIANO.

Playing the Madimba Is an Art Practiced by a Few Specialists.

Among the musical instruments used on the Congo we notice the long and short drum, says the Journal of American Folk Lore. Some drums are used to beat the time of the dance. Some other drums are used as telephones for the transmission of messages to neighboring villages. The stringed instruments represent the African harp. The ivory horns are used for the convocation of popular assemblies. The double bell is used to call the attention of the people to some proclamation of the chief. The Africans everywhere are very musical, but their music does not always suit European taste. The African dance is not always indulged in for amusement alone. Dancing enters into some of the most solemn ceremonies—as, for instance, the inauguration of a new king. Then the chief-elect of the tribe dances very gravely before the assembled elders and the people. The madimba has been called the African piano. It is made of calabashes of graded sizes, which are surmounted by boards, of graded sizes also, all being attached to a semi-circular frame. Each board represents a note or half note and emits its appointed sound when struck by one of the two rubber balls at the end of the two sticks which are cleverly handled by the musician. While almost every native can beat the drum or play some of the minor musical instruments, the playing of the madimba is an art which only a few specialists learn. They must be paid for playing at festivities or ceremonies and their art supports them, either partly or entirely.

## The Scripture Settled It.

A Georgia lawyer who had a case in which conviction for his client seemed certain closed his argument with a scriptural quotation. To the amazement of all, the jury returned a verdict of "not guilty" without leaving their seats. After the court had adjourned the lawyer approached the foreman.

"I am curious to know," he said, "just on what point of law you based your verdict."

"It wasn't no law point, colonel," replied the foreman, "but we jest couldn't get over that scrip!"—Atlanta Constitution.

## Expel Them All

Three bicyclists by crowding Jack Astor into the bushes at Rhinecliff caused him to shut his grounds against all wheelmen. Two bicyclists by stealing flowers at Hyde Park caused Fred Vanderbilt to exclude all wheelmen from his grounds. Here are five wheelmen who have deprived every member of the league of the pleasure of riding through two of the most beautiful parks in the country. Expel them at once, and expel every other rider who trespasses in like manner.

## Blind Family with Genius.

William Brinkman of Kokomo, Ind., has been blind from childhood. Notwithstanding, he a few days ago put in order the big town clock, after many experts had failed. Mrs. Brinkman is also blind and their hired girl is also blind, but their home is one of the very neatest in Kokomo.

## To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

## Candidate Chapman.

Horace L. Chapman, the Democratic silver candidate for governor of Ohio, belongs to that large class of representative citizens who have carved their own

HORACE L. CHAPMAN.

fortunes and risen from humble beginnings to positions of prominence in business and politics. He is president of the Chapman Mining company and owner of three mines in operation, he is president of the Tropic Iron company of Jackson, president of the First National bank of Jackson, president of the Columbus Cycle company, president of the Association of Ohio Mine Operators and is interested in many other enterprises. Mr. Chapman was born on a farm in Alleghany county, N. Y., 60 years ago and removed to Ohio in 1854.

## A Successful Woman Lawyer.

Miss Cora B. Hertz, who has recently been appointed assistant corporation attorney of Chicago, is a plump, pleasant faced young woman who dresses

MISS CORA B. HERTZ.

neatly and modestly, without a suspicion of mannishness about her attire. She is of German parentage and was born in Ottawa. When she was but 4 years of age, her parents removed to Wisconsin, and she went with them to Oshkosh and Marquette. She began to study law when a mere girl and was graduated from a Chicago law school in 1890. Since then she has been practicing her profession and has made a success of it too.

## Justice Bradley.

Justice Bradley, who presided over the recent trials of the Sugar trust magnates in Washington, has been justice of the supreme court of the District of

JUSTICE BRADLEY.

Columbia for eight years. He comes of an old and well known Washington family, and his father was a judge before him. Justice Bradley is about 50 years old.

## A Gubernatorial Candidate.

Frederick E. White, the silver fusion candidate for governor of Iowa, is a

F. E. WHITE.

successful farmer of Keokuk county. He moved to Iowa in 1857 from his native land, Germany, and began his career in the western world as a farmhand. He remained at this work until the breaking out of the war, when he shouldered a musket and joined the ranks of the defenders of the Union. In 1865, after being mustered out, he returned to Iowa and bought a farm in the vicinity of Webster. Here he has remained except during the period in which he resided at Washington, serving a term in congress. He won this office in 1892, when he ran against Major John F. Lacey.

## Russia's Population.

The population of Russia, according to a government census brought down to Jan. 1, 1897, is 129,211,113, with males and females almost exactly equal in numbers. This is an increase of 61,830,463 over the population of 1851. But since that date Russia has acquired control over Central Asia and is now developing along the line of the Siberian railway.

## He Is a Medical Prodigy.

Probably the most phenomenal of juvenile wonders up to date is a 5-year-old anatomist who is astonishing the medical fraternity of Chicago by his prodigious knowledge. He is D. Will Gwin, son of Dr. Howell B. Gwin. Little Master Gwin's familiarity with long anatomical terms is wonderful. He can apply to each bone in the human body its

D. WILL GWINN.

scientific name. He handles a skull and any part of a skeleton with as much familiarity as other boys do the usual nursery playthings. He knows all about the heart structure and all its complex functions and can talk about it in technical terms with a full understanding of what he is saying.

## Korean Prince Wants an American Degree.

From faraway Korea comes Crown Prince Eui-Wha of Korea to finish his education in the United States and add an occidental polish to his worldly wisdom. The prince expects that some day he will be called upon to rule over Korea, and he wants to be prepared.

PRINCE EUI-WHA.

Besides, it is safer for him abroad, for Korea is in a turbulent state politically, and the prince has already escaped from several conspiracies against his life. He is accompanied by two young Korean noblemen, Yong Kin and Sin Sang Koo.

## Can Write 402 Words a Minute.

Isaac S. Dement is the most rapid writer in the world. He is a stenographer and lives in Chicago. His best record was 402 words a minute. This record he established not long ago in a speed test which was held at Quincy, Ill. His wife read the copy to him, and

ISAAC S. DEMENT.

he put it down in hooks, dots and curves. He had previously written 397 words in a minute, and this performance not only broke his own record, but all other records. He was born on a farm in Missouri about 42 years ago.

## Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

# "IT MAKES ME HUNGRY"

just to look at your store; everything is so nice and clean." We are proud of such words as those from our customers, and try to deserve them. Not a shelf in our store but is emptied once a week and carefully wiped --the shelf and everything on it. We began doing this so we could keep things looking nice and clean, but we find the arrangement a great help in keeping them nice and clean and fresh and tempting. Those words do add to the money value of things good to eat, don't they? But you will not find our prices any higher for the extra care we take. We get our advantage in the increase of trade.

## SOME PALATE-TICKLERS AT VERY LOW PRICES.

### DISCIPLES OF MELCHIZEDEK.

Strange Story of Penance Suggested by the Rebellion.

Franz Miller, the hermit of Scarritt's bluff, is an original old character, who is living in solitude for the sake of his own peculiar religion. He calls himself a follower of Melchizedek, the "King of Peace," says the Kansas City World.

He was born in Alsace-Lorraine sixty-one years ago. When he was 17 years old he came to the United States and followed the profession of shoemaker until the war broke out, when he joined the Tenth United States infantry regiment at Newport barracks, Kentucky. He fought through the war, and the terrible scenes on the battlefield led him to thinking. He imagined he had done wrong, and that repentance would be the only way to salvation. He started to do that by carrying what he called the "black cross" for fifteen years. During this time he was to have no fixed place of abode, to accumulate no property, to make no friends, and to shun mankind. He wandered back and forth across the country, and then one night the "spirit" appeared to him while he was walking between Armourdale and Rosedale. He saw satan, in a great red cloak, standing on the bluff. A moment later the shadow of Melchizedek enveloped him, and Miller knew that he had been promoted to the "red cross" order. He settled down, and ran a shoe shop in Kansas City, near the junction. Then he lived a hermit's life in Weston, Mo., and three years ago he took up his abode in a cave excavated in the Scarritt bluff. He has lived there since, alone and happy.

Sometimes, he says, he earns as much as 15 cents a day by picking rags, and this sum suffices to buy bread and coffee, his chief articles of sustenance. He says he never begs. The nurses in the Scarritt hospital would provide for him, but he does not accept their hospitality. His aim in life, he says, is to be at peace with the world and atone for his sin in taking part in the war. He never reads the newspapers, because they suggest worldly thoughts to him. If Miller lived in a more civilized way he would be a handsome man. As it is, his long hair and tangled beard, together with an evident dislike for soap and water, make him look the ideal hermit.

### ICE MEN.

How the Hardy Explorers Reached This Land is a Mystery.

How palaeolithic man got to this land--for it does not seem likely that the genus homo was indigenous here--is a question that has puzzled the wisest; perhaps by way of Greenland, over the bridging ice field which probably connected Europe and America, say Lippincott's. However, we know that he did get here, and, as the first wandering bands of these old hunters came, we know, too, that they found

a land of snow and ice, of great rivers and many lakes. It seems probable, from the finding of occasional implements in the older travels, that the earliest emigrants arrived while the glacier was at its maximum. One unbroken field of ice had spread over all the north, covering Manhattan island 1,000 feet and reaching to within fifty miles of Philadelphia. As the years passed, more bands of these hardy explorers reached this land, and as the second and later recessions of the ice occurred, with accompanying flooded rivers, it is likely that a fairly dense palaeolithic population peopled our river valleys. It was a long time since the first of their race came over the ice; a far distant past it must have seemed--as it truly was to these later-day men. To us the founding of Egypt is so far away that it seems almost wholly mythical; but the time which elapsed between the period of maximum glaciation and the later days of the epoch was possibly five times longer. Yet this is one of the short periods in the life history of the infant race. Such was time in the beginning.

### Eggs Used in Dyeing.

The German demand for duck eggs is said to be bringing prosperity to a certain locality in China. The eggs are employed in manufacture--the whites for the dyeing of textiles in which albumen plays a prominent part, and the yolks for dressing fine leather and glove skins. The eggs are packed in chemicals and are shipped by a German firm which opens some 40,000 per day. The shells, at present, go to waste, though it is thought some use may be found for them later.

### Steamer Cambria Wrecked.

Port Huron, Mich., July 29.--The steamer Cambria of the Windsor, Detroit & Soo line, which left Detroit Tuesday noon with 100 passengers for Sault Ste. Marie, was wrecked Wednesday on Lake Huron, three miles north of Sarnia. The vessel ran into a drift of logs which had broken away from a raft. Her paddles were broken and then her machinery became disabled. The passengers were all safely landed on the beach and are now at Sarnia.

### Virginia Hospitality Falls.

Richmond, Va., July 29.--The proposition to induce the Grand Army to hold its encampment next year here meets with comparatively little sympathy. The Richmond Times, a leading gold Democratic paper, whose editor was one of Mosby's men, bitterly attacks the idea.

### Merry Is Persona Non Grata.

Managua, Nicaragua, July 29.--The diet of the Great Republic of Central America has declared Capt. W. L. Merry of San Francisco, who was recently appointed United States minister to Costa Rica, Nicaragua and Salvador, persona non grata.
